

Sprint 1 Report: Vroom (Revi Tech LLC) 10/22/2017

- Actions to stop doing:
 - Working on things that others are working on
 - Writing things in the wrong Slack channels
 - Missing meetings (partly caused by figuring out meeting times)
- Actions to start doing:
 - Adding a dev branch for Git
 - More in-person meetings (informal, for developing)
 - Make a slack channel for meetings
 - Any time you're working on the app try to involve other people
 - Make tasks more defined/specific/granular
 - Concrete goal with acceptance criteria
 - Concrete timescale (ex: has to be done by 11/8)
 - Clearly mark which people are working on it
 - Start using threads in Slack
 - Sprint planning:
 - Lay tasks out in Trello, and when you want to work on something assign yourself to that card and comment whether or not you want help
 - Estimate tasks in hours
 - Split #debug channel into UI bugs and backend bugs
 - **Testing: set up dev party/automated testing**
 - Elton has experience
 - Individuals take more initiative to assign themselves work
- Actions to keep doing:
 - Communicating on Slack
 - Commenting/Documentation
 - Git commit messages in particular have been excellent
 - Being nice
- Work completed/not completed:
 - Completed:
 - As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car
 - As a developer, I want to learn React Native so that I can build and deploy our app
 - As a developer, I want to learn Firebase so that I can implement a real-time database for our app
 - As a user I want a beautiful welcome to the app where I can add and nickname my car(s)
 - Not completed:
 - n/a
- Work completion rate:
 - Total number of user stories completed: 4
 - Total number of estimated ideal work hours: 30
 - Total number of days during the sprint: 14
 - User stories completed per day: 0.29
 - Ideal work hours per day: 2.14
