

Sprint 1 Plan: Vroom 1.0 (Completion Date: 22/10/17) (Revision 1: 10/10/17)

- Goal
- Task Listing, organized by user story
  - (13) User Story 1: As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car.
    - Task 1: Set up development environment
    - Task 2: Get a Hello World app running
    - Task 3: Modify to include our assets/skeleton functionality
  - (8) User Story 2: As a developer, I want to learn React Native so that I can build and deploy our app.
    - Task 1: Follow along with React Native tutorial (in slack resources)
  - (3) User Story 3: As a developer, I want to learn Firebase so that I can implement a real-time database for our app.
    - Task 1: Follow along with Firebase tutorial (in slack resources)
  - (3) User Story 4: As a user I want a beautiful welcome to the app where I can add and nickname my car(s).
    - Task 1: Include assets for welcome screen
    - Task 2: Code functionality for welcome screen
- Team Roles
  - Will Coates: Scrum Master, Developer
  - Alec Felt: Developer
  - Payam Katoozian: Developer
  - Elton Rego: Product Owner, Developer
  - Connick Shields: Developer
  - Tianyi Zhang: Developer
- Initial task assignment
  - Will Coates:
    - As a developer, I want to learn React Native so that I can build and deploy our app. (Task 1: Follow along with tutorial).
    - As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car. (Task 2: Get a Hello World app running)
  - Alec Felt:
    - As a developer, I want to learn React Native so that I can build and deploy our app. (Task 1: Follow along with tutorial).
    - As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car. (Task 2: Get a Hello World app running)
  - Payam Katoozian:
    - As a developer, I want to learn React Native so that I can build and deploy our app. (Task 1: Follow along with tutorial).
    - As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car. (Task 2: Set up development environment)
  - Elton Rego:

- As a developer, I want to learn React Native so that I can build and deploy our app. (Task 1: Follow along with tutorial).
  - As a user, I want a functional app that runs well on my phone and does not crash so that I can access information about my car. (Task 2: Set up development environment)
  - Connick Shields: Developer
    - As a developer, I want to learn React Native so that I can build and deploy our app. (Task 1: Follow along with tutorial).
