

Building to Android: Failed to execute aapt #19

🔒 Closedwcoatesucsc opened this issue 20 days ago · 1 comment

wcoatesucsc commented 20 days ago

After successful init script, building to Android fails with this message:

Execution failed for task ":app:processDebugResources".

com.android.ide.common.process.ProcessException: Failed to execute aapt

with failures messages above having to do with missing resources, like Buttons and keyboardNavigationCluster

wcoatesucsc commented 20 days ago

Open vroom-app\vroom\android\app\build.gradle and set

compileSdkVersion 26
buildToolsVersion "26.0.1"
